

Holiday Lighting

Welcome Package

The Process

Step 1: Design Consultation & Quote

We will gather information from you on what exactly you hope to receive for your home. We then design mock ups of potential displays to go over with you at your home during your in-person consultation. Working together, we will finalize your design or provide options that you can choose for your final holiday display.

Step 2 - We Provide Professional Lights & Supplies

Your home will be decked out with only the highest quality, commercial-grade lights and décor. This means only ultra-bright, energy-efficient LED bulbs and commercially sourced wreath and garland.

Step 3: Professional Installation

Our team is expertly trained to deliver a spectacular display without compromising safety or timeliness. That means you get your display without ever lifting a finger!

Step 4: In-Season Maintenance

A bulb goes dead? Don't worry about getting your ladder out. Give us a call and we will be over to fix it.

Step 5: Removal & Storage

When the holidays are over we will come remove the lights and store them. Next fall we will check them all to ensure they are shining bright for your renewal next season.

Professional Lighting

Our commercial lights are designed to shine all winter long. They provide the brightest design and most popular for our displays. As an LED bulb, these are exceptionally energy efficient with a string of 25 lights using as little as 10 watts.

The lights are custom cut to fit your home perfectly so there's no strands where they shouldn't be. The best part? You can customize your display bulb-by-bulb!
